To

The firms dealing in Typewriters.

Enquiry No. 2925.

TYPEWRITERS.

GENTLEMEN,

Sealed tenders will be received by the undersigned up to the 30th July 1938, in accordance with the conditions of contract specified below, for the supply of typewriters (both stationary and portable models) required by the Mysore Government Offices during the year 1938-39.

(1) The prices to be quoted should hold good for one year from the date the contract is let.

(2) The Stores Purchase Committee do not bind themselves to purchase any particular make or makes of machines exclusively or any definite number of machines during the year.

(3) The prices to be paid should be for supply of the original make of machines and not factory rebuilt ones. A guarantee to that effect should be furnished in each case.

(4) The prices to be quoted should be for free delivery on rails at any railway station in the Mysore State.

(5) The tenders should specify whether ready stocks of spare parts of the machines supplied are held by the tendering firms and whether they have any service agency in the Mysore State.

(6) The quotations should include the cost of baseboard, cover, and the usual accessories to be supplied with each machine which should be specified in detail by the tendering firm.

The above enquiry Number should be quoted in all your correspondence.

OIL ENGINE PUMPING SET FOR WATER SUPPLY TO MUDUKATORE JATRA.

GENTLEMEN,

Please be good enough to intimate your best prices for delivery f.o.r., Mysore and the earliest time of delivery for the materials described below :—

(1) Oil Engine pumping set capable of lifting 80 gallons per minute against a total height of 265', conforming to the attached specification .. .. .. One set.
(2) One set of spares such as (1) Valve springs, (2) Two gaskets, (3) Piston rings, etc. One set.
(3) One set of accessories consisting of—(*a*) Suitable driving pulleys for the engine, (*b*) Foot valve for the pump, (*c*) Gunmetal sluice valve .. .. One set.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchase being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Oil Engine Pumping Set for water supply to Mudukatore Jatra" with the above enquiry Number.

The enquiry will be closed on the 18th August 1938.

SPECIFICATIONS FOR AN OIL ENGINE DRIVEN PUMPING SET FOR WATER SUPPLY TO MUDUKATORE JATRA.

The pumping set to consist of a crude oil engine and a centrifugal pump and to have a capacity of lifting 80 gallons a minute against a total height of 265'.

The engine to be capable of running on light diesel oil ordinarily available in the market. The oil consumption should be very low and should be noted in the specification.

The unit is to be installed at an altitude of 2000' above sea level and the engine should be capable of developing enough power to drive the pump at this level.

The engine to be of the horizontal, hopper cooled type, with its shaft extended to one side to mount the driving pulley.

The pump should be of standard make with gunmetal impellers mounted on special steel shaft running on ball or roller bearings.

It should be of the self-balanced type without any thrust pads.

No. S. P. C. 1221-35, *dated 16th July* 1938.

To

The Firms dealing in P. S. Tank and Staging.

Enquiry No. 2931.

The enquiry will be closed on the 1st August 1938.

No. S. P. C. 1189-220, *dated* 15*th July* 1938.

To

The Firms dealing in Electric Pumping Sets.

Enquiry No. 2932.

AN ELECTRIC PUMPING SET FOR BELUR TOWN WATER SUPPLY.

GENTLEMEN,

Please be good enough to intimate your best prices and the earliest time of delivery for one Electric driven direct coupled pumping set as described in the attached specification.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchase being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Electric Pumping Set for Belur Town Water Supply" with the above enquiry Number.

The enquiry will be closed on the 6th August 1938.

SPECIFICATIONS FOR AN ELECTRIC DRIVEN, DIRECT COUPLED CENTRIFUGAL PUMP FOR BELUR TOWN WATER SUPPLY.

PUMP.—The pump required is one multi-stage centrifugal pump, capable of discharging 140 gallons per minute against a total head from all causes of 140 feet throughout 24 hours.

The casing to be made of hard and close grained and C. I. preferably horizontally split, so as to enable easy removal for inspection.

The shaft should be made of best Siemens Martin Steel or otherwise, stainless steel, the impellers, guide vanes, neck rings, glands and bushes, should all be of hard phosphor bronze. It should be of a double entry self balanced type so that there may be no end thrust on the shaft. The pump must be fitted with a suitable ball thrust bearing to take up residual and thrust if any. The pump should be fitted with pressure and vacuum gauges, and release cocks, drain cocks, and priming turndish.

The pump should be directly coupled to a suitable Electric Motor by means of flexible pin coupling and on a common C. I. bed plate with foundation bolts, etc., for fixing.

MOTOR.—The motor should be capable of running on 3 phase, 25 cycles, 220 volts, A. C. system. It should have 15 per cent to 20 per cent of overload (continued) capacity. The motor should be of deep proof type and supplied with a switch gear, incorporating one ammeter, one volt-meter and no-load and over-load releasers.

The quotation should be f.o.r., Hassan.

No. S. P. C. 1169-88, *dated* 16*th July* 1938.

To

The Firms dealing in Ball Frames.

Enquiry No. 2933.

BALL FRAMES REQUIRED DURING 1938-39.

GENTLEMEN,

Please intimate your best present day price for free delivery at the several Railway stations in the State for the supply of Ball Frames of the following specification :—

Ball Frame, measuring $11\frac{1}{2}'' \times 11\frac{1}{2}''$ inside and $13\frac{3}{4}'' \times 13\frac{3}{4}''$ outside, frame work, $1\frac{1}{8}'' \times \frac{3}{4}''$, strong joints at corners, supported by a couple of screws.

Balls ten rows of ten each, same colour in each row, but different colour in different rows. Diameter $\frac{1}{2}'' \times 2/5''$ must slide easily on wires which must be strong and elastic.

Rests at the bottom to place the whole frame on the table.

The price to be quoted should hold good for a period of one year from the date of letting the contract.

Your quotation should reach this office on or before 30th July 1938.

Yours faithfully,
T. RANGASWAMI,
Secretary,
Stores Purchase Committee.
